

2023 MODR Graduate student scholarships | Evaluation Rubric

Reviewer initials:	Applicant name: MODR supervisor:
---------------------------	---------------------------------------------------

1. Research achievements and potential (8 point maximum) – 0.5 mark increments	
Curriculum vitae is organized and shows excellence, and/or a trajectory of excellence, and includes tangible contributions to metabolism research.	
Published research: quantity, quality and (potential) impact of contributions to metabolism.	
Track record relative to opportunity and career stage: Consider 1 st year MSc students versus 4 th year PhD students. Consider previous resources and privilege relative to achievements	
Score: /7	Reviewer comments and feedback:

2. Research proposal (2 point maximum) – 0.5 mark increments	
200 word maximum	
Clear, concise	
Potential for excellence	
Collaboration with other MODR students and faculty	
Feasible relative to timing and research environment	
Proposal scope can exceed 1 year duration of award	
Score: /3	Reviewer comments and feedback:

3. Contribution to MODR research community (2 point maximum) – 0.5 mark increments	
100 word maximum	
How will the applicant contribute to promoting excellence in research within the wider MODR research community? Examples could include regular attendance and participation in seminar series over the past year, participation in MODR committees (e.g. seminars, engagement), leading student committees or teaching new techniques to MODR members.	
Feasibility and defined timeframe	
Score: /2	Reviewer comments and feedback:

Is there a guarantee of support from supervisor to the minimum stipend required for graduate studies?

Yes or No (circle one)
